

**WITHOUT US IT'S NOT FOR US!**  
**#PATIENTSINVOLVED**

## **ARE YOU INTERESTED IN MEANINGFUL PATIENT INVOLVEMENT IN CLINICAL RESEARCH?**

Patient & Public Involvement (PPI) in research is gaining momentum in Ireland and is of increasing relevance to many health research stakeholders. The importance of early, meaningful, and systematic patient & public involvement in Clinical Research has never been higher. In order to help establish good practice in PPI in Clinical Research in Ireland and to provide guidance for interested clinical researchers and the public, an online repository of relevant PPI documents has been launched on the IPPOSI website at the link below:

<https://bit.ly/ppiclinicalresearch>

Tools & resources available under 6 key headings

- How to do PPI
- Planning for PPI
- Working with the public
- Evaluating and measuring impact
- Designing Patient Information
- Guidance for the Public

The Clinical Research PPI Working Group (CR-PPI-WG) works collaboratively under the HRB-CRCI and IPPOSI umbrellas to promote active and meaningful PPI as part of the infrastructure for clinical research in Ireland. Members include representatives from IPPOSI, HRB-CRCI, Clinical Research facilities & centres, hospitals, universities, patient groups and the healthcare industry.
